THE PEOPLE AND THE PUSH.

If it is not an irrational, improbable query, what have the people of Salem to expect at the hands of the push politicians? It should be remembered that this is a very strong Republican city, the Republican county seat of a Republican county, and the Republican capital of a Republican state.

Whenever the people seek to improve their condition or their government it is a significant fact that they have got to get in and smash the states, down the machine and defeat the push. Yet the push is in control of the Republican machine. To improve city or school district finances the people have had "to do up" the push. To get reforms in county affairs they have to fight the push.

In our state affairs the people have appropriations piled upon them and incompetent officials forced upon them by the personal politics of the push. What the people love in a man like Governor Roosevelt is his independence and defiance of the spoils element. He has his faults but so far he has won public confidence just in proportion as he has refused to kneel and truckle to the party push.

To get a new city charter that would put an end to robbing the county out of thousands of dollars annually by constructive criminal fees, the people of Salem had to fight the consolidate Salem push. To put the city finances in order the Republican machine had to be overthrown and thus the robbery of the taxpayers in city and county to supply the push with campaign funds has been stopped.

Last the People forget, if they want this city got out of the quagmire of debt and placed high on the pedestal of financial honor, with its credit maintained as the best on the Pacific coast, where interest shall be low and taxes reduced, they must not let this city release into the hands of the push. The push is nothing but an organized political appetite.

In its fight on the push the Journal is not pursuing personal politics or self-

fish ends. There are some good men among the push politicians and all the bad ones, in the sense of being not mindful of the public welfare, but using politics and government for personal gain, and to reward their tools by prostituting a public trust to private ends.

The push is animated by lust for official honors and emoluments. It has only hatred for those who cross its purposes in plundering the public. It will persecute any man who defies its ends. The push fought and defeated Dr. Byrd for school director not because he liked Tommy Davidson, but because he allowed his name to be used against the push candidates the year before. The push is fighting Hon. M. L. Chamberlain, who is trying to get a state appointment for no other reason than that he dared to be a candidate against the idol of the push, a man stuffed and gilded with money made out of his connection with politics. The push will fight men like Mayor Bishop, Alderman Riggs, Recorder Judah and City Marshal Gibson as long as they live and serve the people instead of the plundering gang who have sunk this community almost hopelessly in debt. The push never forgets, and the people are only safe so long as they keep their eye on the push and their hand on the trigger. The Journal has made enemies fighting the push, but it has never made a compromise as a newspaper fighting for the cause of good government. It is well as we have entered upon another year of American Independence to review the situation and not forget that eternal vigilance is the people's salvation.

CURRENT EVENTS.

The annual Henley regatta near London opened today. Unusual interest manifested this year in the English Aquatic Derby owing largely to the participation of the crew sent by the Argonaut Rowing club of Toronto. Representatives of this organization will compete for the Diamond Sculls and the Steward's Challenge cup, as well as for the Grand Challenge cup.

A large crowd of college men and athletic enthusiasts gathered at the Jersey City docks today to witness the departure of the Harvard and Yale athletes for England, where they are to meet the representative of Oxford and Cambridge universities in athletic contests two weeks hence. The American teams consist of twenty-three men, all crack athletes and each of them considered a record breaker in his own specialty. In the union of these who stand up the men before their departure today they should return with several scalps of

English crack athletes dangling at their belts.

The announcement that Mrs. Mary A. Livermore had burned a number of her manuscripts has given rise to a wide-spread rumor that she is dying. As a matter of fact, Mrs. Livermore is at present in better health than usual. Although 78 years of age, she has been lecturing on an average four times a week, up to a few days ago, when her husband, Rev. D. P. S. Livermore, was taken ill with jaundice. Now she is staying home to nurse him. When invited to speak at the recent annual festival of the New England Woman Suffrage Association, she wrote that her husband was restless and suffering, especially toward night, and that she spent every evening reading aloud to him. Mrs. Livermore added: "Sever during the fifty-four years of our marriage has he once failed me in an emergency. Wild horses could not drag me from home now that he is ill and needs me."

Dr. Livermore is an enthusiastic believer in equal rights for women. He has upheld and encouraged his wife in all her public work; and Mrs. Livermore has always laughed at the idea that the advocates of equal suffrage were moved by antagonism toward men.

Trains from the Dominion, from New England, California, Texas and all the intervening states poured into Detroit, Mich., today at intervals of every few minutes. Ohio, one of the banner Christian Endeavor states of the Union, sent big delegations today. They began to come early and are still pouring in by train and boat. Pennsylvania will be represented by a thousand or more delegates. Many states have not selected hotel quarters, preferring to account of their ample and pleasant homes to quarter their delegates there.

The Union Jack and the Stars and Stripes fly side by side over the Central Presbyterian church, where are located the headquarters of the Canadian delegates.

The down town district is literally hidden beneath a mass of gay bunting, and flags in which crimson and white predominate. The electric light men have also shown what they could do and tonight the eyes of the visiting hosts will be greeted with brilliant electrical displays in which the insignia and mottoes of the organization will blaze forth from hotel fronts and across the streets and boulevards. The big canvas structures in Cass avenue, where the main sessions of the convention are to be held, will be lighted by large clusters of electric light.

The formal opening of the convention will be held tonight when the visitors will be greeted by Maybury, Rev. Charles B. Newman in behalf of the Detroit pastors and W. H. Strong, chairman of the local committee. The responses will be made by Rev. E. S. Rowe of Toronto, Rev. H. S. Tresidder of London, England and Rev. Arthur J. Smith, of Savannah, Ga.

The first convention of the National Association of Osteopaths opened at Indianapolis, Ind., today with several hundred members in attendance. It is reported that the organization now has a membership of 600. Eight states have local subsidiary organizations. Eight states have legalized the practice of osteopathy by special legislative enactment, and in at least a dozen more states the osteopaths are allowed to practice unmolested.

BEECHAM'S PILLS

Art like magic—strengthening the muscular system, restoring the long-lost complexion, bringing back the keen edge of appetite and eradicating with the touch of the hand the whole physical energy of the human frame. One of the best guarantees to the system and the blood is that Beecham's Pills have been sold in the world, and this has been achieved without the publication of testimonials.

10 cents and 25 cents, at all drug stores.

THE OLD WAY.

Of Treating Dyspepsia and Indigestion by Dieting a Dangerous and Useless One.

We say the old way, but really it is a very common one at the present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken, in other words the starvation plan is supposed by many to be the first essential.

The almost certain failure of the starvation cure has been proven time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting to a man suffering from dyspepsia, because indigestion itself starves every organ, every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome well cooked food, and something to assist the stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia, in other words the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the system is nourished and the overworked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 3,000 grains of meat or eggs.

Your druggist will tell you that Stuart's Tablets is the purest and safest remedy for stomach troubles and every trial makes one more friend for this excellent preparation. Sold at 50 cents for full sized package at all drug stores.

A little book on cause and cure of stomach diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

Peter Norgren spent the fourth at Turner, and reports a rare good time at that place.

At that sad moment when we

Death is a fearful thing. Above the case we hold most dear.

We know that death must come sooner or later, but we can never surely foretell when the death angel will appear. No matter how imminent the summons may seem, it may still, in God's good providence, be far away. It is part of man's humanity to man to avert sickness and death.

Nearly thirty years ago, an institution was founded in Buffalo, N. Y., known as the Invalid Hotel and Surgical Institute, which has since become one of the most famous institutions in the world for its treatment of the sick and suffering all over the United States. Thousands have come there for treatment and tens of thousands have received professional advice by mail with suggestions for inexpensive home-treatment, whereby they have been cured of severe and in many instances, apparently hopeless diseases.

A Massachusetts man, Mr. John Brooks of Boston, writes: "About a year ago I was taken with a bad cold which settled on my lungs. The doctors said I was in a dangerous condition and I had to stay in bed for a long time. I took a course of Cod Liver Oil and it did me no good. My lungs were weak and I had a great deal of trouble. I felt so sick when I wrote to you that I thought I would not live through the winter. In the morning, I read an article in your paper about the Invalid Hotel and Surgical Institute and I would get all the time and had pains in my chest. My lungs were weak and I had a great deal of trouble. I felt so sick when I wrote to you that I thought I would not live through the winter. In the morning, I read an article in your paper about the Invalid Hotel and Surgical Institute and I would get all the time and had pains in my chest. My lungs were weak and I had a great deal of trouble. I felt so sick when I wrote to you that I thought I would not live through the winter. In the morning, I read an article in your paper about the Invalid Hotel and Surgical Institute and I would get all the time and had pains in my chest. My lungs were weak and I had a great deal of trouble. I felt so sick when I wrote to you that I thought I would not live through the winter.
